

# GRAND LAUNCH OF THE MEDICAL COBOTICS CENTRE (MCC)

Dalvkot is pleased to announce the grand opening of the Medical Cobotics Centre (MCC), inaugurated on 28th November 2025 in Bengaluru. Established in collaboration with IHFC (IIT Delhi), this milestone marks a significant advancement in India's healthcare technology and Robotics Innovation.

The launch event was graced by esteemed dignitaries, including:

Dr. Mahesh B. Kotapalli, President – Dalvkot  
PROF. SK. Saha, Project Director – IHFC  
Mr. Ashutosh Dutt Sharma

The MCC is envisioned to accelerate progress in:

- Medical Robotics
- Clinical Innovation & Research

Created as a dedicated hub for hospitals, Students, clinicians, researchers, and innovators, the centre offers access to advanced robotic platforms, high-fidelity simulation environments, and next-generation training infrastructure. MCC aims to foster breakthroughs that enhance patient safety, clinical efficiency, and technological excellence.

The collaboration between IHFC and Dalvkot reinforces a shared commitment to driving smarter, safer, and future-ready healthcare solutions.

A new era of medical innovation begins with the launch of MCC.
