DALVKOT FEATURED IN NUTANIX CUSTOMER SUCCESS STORY FOR TRANSFORMING HEALTHCARE IT INFRASTRUCTURE

DALVKOT is proud to be featured in the official customer success story published by Nutanix, highlighting our role in modernizing and optimizing the IT infrastructure for the Vydehi Hospital Group. This recognition showcases DALVKOT's commitment to delivering reliable, high-performance technology solutions that directly support better patient care. Through the deployment of the Nutanix Cloud Platform, DALVKOT successfully migrated mission-critical systems — including the Healthcare Information Management System (HIMS), Picture Archiving and Communication System (PACS), and related data services — into a unified, scalable, and efficient cloud environment.

DALVKOT is proud to be featured in the official customer success story published by Nutanix, highlighting our role in modernizing and optimizing the IT infrastructure for the Vydehi Hospital Group. This recognition showcases DALVKOT's commitment to delivering reliable, high-performance technology solutions that directly support better patient care. Through the deployment of the Nutanix Cloud Platform, DALVKOT successfully migrated mission-critical systems — including the Healthcare Information Management System (HIMS), Picture Archiving and Communication System (PACS), and related data services — into a unified, scalable, and efficient cloud environment.

Key Outcomes Highlighted by Nutanix

As detailed in the Nutanix feature, DALVKOT achieved significant improvements across performance, reliability, and operational efficiency:

- 5× faster access to medical data for doctors and clinical staff
- HIMS response time improved from 3,420 ms to 5.5 ms
- Uptime enhanced to over 99%, ensuring uninterrupted access to patient data
- 50% smaller IT footprint, reducing infrastructure complexity
- 60% reduction in energy usage, contributing to cost efficiency
- Simplified IT management through a single, integrated dashboard
- Fewer system administrators required due to streamlined infrastructure

These outcomes demonstrate the strength of DALVKOT's technology capabilities and the impact of a well-designed cloud foundation for healthcare organisations.

COO'S PERSPECTIVE

In the Nutanix story, DALVKOT's Chief Operating Officer, K Srikar Dalavai, shared:
"With Nutanix, we are helping our hospitals provide clinicians with rapid access to patient data so they can make accurate and confident decisions and deliver a superior level of healthcare."
His statement underscores the strategic importance of technology in delivering faster, more reliable medical services across the Vydehi Hospital Group.

> **With Nutanix, we are helping our hospitals provide clinicians with rapid access to patient data so they can make accurate and confident decisions and deliver a superior level of healthcare.**

> Chief Operating Officer, Dalvkot

Advancing Healthcare Through Reliable Technology

The Nutanix feature further acknowledges DALVKOT's commitment to upgrading legacy, siloed systems into a unified cloud-enabled architecture — enabling hospitals to improve care delivery, strengthen operational efficiency, and sustain long-term digital growth.
